

KENGERLI, Talat N.

Doctor in geological-mineralogical sciences

Key Publications

1. Tectonics of the Greater Caucasus. International symposium on Middle East Basin Evolution 2007. p.12. (Co-authors: Mosar L., Bochut M., Brunet M-F., Egan S., Sosson M.).
2. Subsidence and uplift mechanisms within the South Caspian Basin: insights from the onshore and offshore Azerbaijan region. Geological Society, Special Publication No.312. London, 2009. p. 219-240. (Co-authors: Egan S., Mosar L., Brunet M-F.).
3. Cenozoic-Recent tectonics and uplift in the Greater Caucasus: a perspective from Azerbaijan. Geological Society, Special Publication No.340. London, 2010. p. 261-280. (Co-authors: Mosar L., Bochut M., Glasmacher U., Rast A., Brunet M-F., Sosson M.).
4. Subduction, obduction and collision in the Lesser Caucasus (Armenia, Azerbaijan, Georgia), new insights. Geological Society, Special Publication No.340. London, 2010. p. 329-352. (Co-authors: Sosson M., Rolland Y., Muller C., Danelian T., Melcinyan R., Kekelia S., Adamia S., Babazadeh V., Avagyan A., Galoyan G., Mosar J.).
5. "Tektonics of Central Greater Caucasus"- DARIUS News, 2011, №2 (Co-authors: Dj.Mosar, I.P.Gamkrelidze, N.L.Enna).

Conference Abstracts

1. Condition of Side Range evolution in the South-East Caucasus. Proceeding of the 6th Baku International Congress» Energy, Ecology, Economy», v.11.Baku.2002. p. 114-115.
2. Role of overthrust tectonics in formation of modern structure in Azerbaijan, Great Caucasus. Ist International Symposium Of Istanbul Technical University Abstracts. Istanbul, Turkey, 2002. p. 92.
